March 2026

Cautionary Statement

In this presentation, all amounts are in Canadian dollars, unless otherwise indicated. Any graphs, tables or other information in this presentation demonstrating the historical performance of Dexterra Group Inc. (“Dexterra” or “Dexterra Group”) or of any of its business units contained in this presentation are intended only to illustrate past performance and are not necessarily indicative of future performance of Dexterra Group or any of its business units.

Forward-Looking Statements

Certain statements contained in this presentation may constitute forward-looking information under applicable securities law. Forward-looking information may relate to Dexterra’s future outlook and anticipated events, business, operations, financial performance, financial condition or results and, in some cases, can be identified by terminology such as “continue”; “forecast”; “may”; “will”; “project”; “could”; “should”; “expect”; “plan”; “anticipate”; “believe”; “outlook”; “target”; “intend”; “estimate”; “predict”; “might”; “potential”; “continue”; “foresee”; “ensure” or other similar expressions concerning matters that are not historical facts. In particular, statements regarding Dexterra’s future operating results and economic performance, including return on equity, Adjusted EBITDA margins and business mix; capital allocation priorities, acquisition strategy; its capital light model, market and inflationary environment expectations, asset utilization, camp occupancy levels, its leverage, Free Cash Flow, wildfire activity expectations, expected benefits from the Right Choice Camps and Catering acquisition and Pleasant Valley Corporation investment, U.S. tariff or retaliatory impacts, and its objectives and strategies are forward-looking statements. These statements are based on certain factors and assumptions, including expected growth, market recovery, results of operations, performance and business prospects and opportunities regarding Dexterra. While management considers these assumptions to be reasonable based on information currently available to Dexterra, they may prove to be incorrect. Forward-looking information is also subject to certain known and unknown risks, uncertainties and other factors that could cause Dexterra’s actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information, including, but not limited to: the ability to retain clients, renew existing contracts and obtain new business; an outbreak of contagious disease that could disrupt its business; the highly competitive nature of the industries in which Dexterra operates; outsourcing of services trends; reliance on suppliers and subcontractors; cost inflation; U.S. tariff impacts; volatility of industry conditions could impact demand for its services; a reduction in the availability of credit could reduce demand for Dexterra’s products and services; Dexterra’s significant shareholder may substantially influence its direction and operations and its interests may not align with other shareholders; its significant shareholder’s 51% ownership interest may impact the liquidity of the common shares; cash flow may not be sufficient to fund its ongoing activities at all times; loss of key personnel; the failure to receive or renew permits or security clearances; significant legal proceedings or regulatory proceedings/changes; environmental damage and liability is an operating risk in the industries in which Dexterra operates; climate changes could increase Dexterra’s operating costs and reduce demand for its services; liabilities for failure to comply with public procurement laws and regulations; any deterioration in safety performance could result in a decline in the demand for its products and services; failure to realize anticipated benefits of acquisitions and dispositions;

inability to develop and maintain relationships with Indigenous communities; the seasonality of Dexterra’s business; inability to restore or replace critical capacity in a timely manner; reputational, competitive and financial risk related to cyber-attacks and breaches; failure to effectively identify and manage disruptive technology; economic downturns can reduce demand for Dexterra’s services; its insurance program may not fully cover losses. Additional risks and uncertainties are described in Note 23 to the Financial Statements contained in its most recent Annual Report filed with securities regulatory authorities in Canada and available on SEDAR at [sedarplus.ca](https://www.sedarplus.ca). The reader should not place undue importance on forward-looking information and should not rely upon this information as of any other date. Dexterra is under no obligation and does not undertake to update or alter this information at any time, except as may be required by applicable securities law.

Non-GAAP Measures

Certain measures and ratios in this presentation do not have any standardized meaning as prescribed by GAAP and, therefore, are considered non-GAAP measures. Non-GAAP measures include “Adjusted EBITDA”, calculated as earnings from continuing operations before interest, taxes, depreciation, amortization, equity investment depreciation, share based compensation, gain/loss on disposal of property, plant and equipment, and non-recurring items; “Adjusted EBITDA as a % of revenue”, calculated as Adjusted EBITDA divided by revenue; “Free Cash Flow” or “FCF”, calculated as net cash flows from (used in) operating activities from continuing operations, less sustaining capital expenditures, lease payments and finance costs from continuing operations plus proceeds on the sale of property, plant and equipment and intangible assets from continuing operations; and “Return on Equity”, calculated as net earnings from continuing operations divided by average total shareholders’ equity. Sustaining capital expenditures included in the definition of Free Cash Flow are replacement expenditures and/or leases necessary to maintain the existing business from continuing operations.

These measures and ratios provide investors with supplemental measures of Dexterra’s operating performance and highlight trends in its core businesses that may not otherwise be apparent when relying solely on GAAP financial measures. Dexterra also believes that securities analysts, investors and other interested parties frequently use non-GAAP measures in the evaluation of issuers. Dexterra’s management also uses non-GAAP measures in order to facilitate operating performance comparisons from period to period, to prepare annual operating budgets, and to determine components of management compensation.

These measures are regularly reviewed by the Chief Operating Decision Makers and provide investors with an alternative method for assessing the Corporation’s operating results in a manner that is focused on the performance of the Corporation’s ongoing operations and to provide a consistent basis for comparison between periods. These measures should not be construed as alternatives to net earnings and total comprehensive income or operating cash flows as determined in accordance with GAAP. The method of calculating these measures may differ from other entities and accordingly, may not be comparable to measures used by other entities. For a reconciliation of these non-GAAP measures to their nearest measure under GAAP please refer to “Reconciliation of non-GAAP measures” in the Company’s Management’s Discussion and Analysis for the year ended December 31, 2025.

SUPPORT SERVICES STRATEGY

IFM is a Key Driver of Growth

Fully Integrated Relationships

- Strong organic growth prospects
- Technology enabled

Investments

- Investment in the resources and tools necessary for accelerated organic growth and the delivery of a multi-year acquisition program to increase capabilities and scale.
- Partnerships

U.S. Expansion

- Organic growth and accretive strategic acquisitions to add scale and capability

Energy Management Capabilities

- Expand our energy management services in support of clients on their journey to “net-zero”

Self-Perform Delivery Model

One or several discrete large client locations (e.g. an airport, government buildings, etc.)

- Dexterra employees deliver service to the client
- Often large, complex campuses
- Scale and activity levels that warrant full time Dexterra staff (e.g., on-site leadership, electricians, HVAC technicians, janitorial staff etc.)
- Subcontractors only for specialized skill or equipment (e.g., elevator repair/maintenance)

Hybrid Delivery Model

A combination of both Self-perform and Distribution models

Optimized structure based on client organization and locations e.g. self-perform at large centralized facilities and utilize distributed model for dispersed remote locations.

Distribution Model

A client with many multiple locations distributed across diverse dispersed regions (e.g., client retail locations Canada/US-wide)

- Dexterra outsources service delivery to regional sub-contractors
- Centralized dispatch, command centre, account management
- Pre-qualified subcontractors located based on proximity to client location
- Extensive service delivery area through sub-contractors
- Technology enabled – both subcontractor management as well as client facing financials, data, KPIs.

OUR SUPPORT SERVICES CONTRACTS

Typical nature of contracts

Service Types

Single service and complex multi-service

Pricing Models

Ranges from fixed price, cost-reimbursable, and schedule of rates. Most contracts provide opportunity for additional work and special services over and above the scope of the base contract. Many contracts also provide the ability to pass on inflation escalations to clients over time.

Integrated

Complex, multi-service contract that consolidates all FM services into one contract to be self-performed by one outsourced team.

Procurement Process

Sole source and competitive RFP process, particularly for government and institutional clients.

Seasonality

Project work, food services for educational institutions and forestry can be seasonal in nature.

Length of Contract

Typically, 3 to 5 years and longer for P3 projects.

REMOTE SERVICES & WORKFORCE ACCOMMODATIONS

Turn-key Lodges

Client-dedicated facilities where Dexterra is contracted to provide a complete turn-key solution, including mobilization, set-up, and rental of workforce accommodations equipment based on client's size and configuration requirements, as well as the provision of food service, operations, and management of the facility.

Lodge Operations and Management

Facilities where Dexterra is contracted to provide food service, operations, and management of client-owned and dedicated facilities.

Open Lodges

Dexterra-owned, operated, and managed lodges that are contracted to multiple clients on a per-day occupancy basis. Occupancy contracts can be short or long term.

Lodge Rental

Client-dedicated facilities where Dexterra is contracted to provide the rental of workforce accommodations equipment based on client's size and configuration requirements (often including mobilization and set-up), and where the provision of food service, operations, and management of the facility is provided by the client or others.

ASSET-BASED SERVICES
